Experience

- **Tuidi s.r.l. [🌐]** *10/2025 - Now*
  Senior BI & Data Engineer Remote
  - Built and managed end-to-end data flows on Databricks, implementing Medallion Architecture (bronze, silver, gold) on Azure Cloud Platform
  - Optimized existing data pipelines through targeted rewrites, improving execution time by 40% and code maintainability;
  - Defined architectural standards and guidelines for the data platform, ensuring consistency and data quality across the Bronze/Silver/Gold flow;
  - Collaborated with clients on data mapping and data modeling to integrate client sources into the data platform in compliance with data contracts;
  - Authored functional documentation for clients ahead of project kickoff, aligning scope, data sources and deliverables

  `Power BI` `DAX` `SQL` `Databricks` `Azure` `dbt` `Git` `Python`

- **Data Reply [🌐]** *05/2023 - 10/2025*
  Senior BI & Data Engineer Consultant Remote
  - Gathered business requirements and supported business users in 7 different data transformation projects;
  - Designed and optimized end-to-end Power BI solutions shared with 100+ business users;
  - Implemented DAX measures and data modeling best practices, reducing refresh time by 30% and increasing report reusability across projects;
  - Designed ETL/ELT pipelines (bronze, silver, gold layers) to enable reporting-ready data models;
  - Delivered training and documentation on BI tools to business users and internal teams;
  - Leds BI recruitment interviews; responsible for preparing, organizing, and overseeing candidates;
  - Coordinated and managed teams of 3/4 people (deadline, task prioritization, client management);

  `Power BI` `DAX` `SQL` `AWS` `GCP` `dbt` `Git` `Python`

- **Iconsulting [🌐]** *11/2021 - 05/2023*
  Business Analytics Specialist Remote
  - Developed custom dashboards using Power BI, enhancing client reporting workflows and reducing manual operations by 40%;
  - Built data pipelines and dimensional models using SQL and ETL tools, increasing data reliability and reducing refresh failures;
  - Performed exploratory data analysis (EDA) to uncover patterns and trends in large, complex datasets;
  - Conducted statistical analysis to test hypotheses and draw data-driven conclusions;
  - Gathered business requirements and supported business users in different projects across various business functions, including Marketing, Sales, and Finance;
  - Developed and deployed REST services using OSB (Oracle Service Bus);

  `Power BI` `DAX` `SQL` `Azure` `SQL Server` `SAP Data Services` `OSB` `REST API`

- **Data Reply [🌐]** *10/2020 - 03/2021*
  Data Science Intern Remote
  - Applied log analysis techniques (Deep Neural Networks) for anomaly detection in system logs

Teaching Experience

- **Liceo «Nolfi-Apolloni»** *11/2024 - 04/2025*
  Teacher — STEM and digital skills guidance programme (PNRR, D.M. 65/2023) Fano, Italy
  - 40-hour assignment under the Public Notice D.M. 65/2023 — PNRR (Italian National Recovery and Resilience Plan), Mission 4: guidance and training programmes to strengthen STEM and digital skills.

- **Liceo Scientifico Fulcieri** *09/2021*
  Senior Teacher — PCTO «App development and artificial intelligence concepts» Forlì, Italy
  - 30-hour coding course for final-year students, focused on Android app development, as part of the school's PCTO (school-to-work transition) IT programme.

- **Ragazze Digitali project [🌐]** *07/2021*
  Senior Teacher — «Create your own app with Kodular»
  - Summer course for female students aged 16–18 on basic AI concepts and block-based visual programming: designed the syllabus, prepared the teaching materials, taught the classes and coordinated group projects.

- **Istituto Bramante Genga** *04/2021*
  External Expert — PON project Pesaro, Italy
  - 30-hour course «Coding Lab: designing apps for Android devices», part of the PON project 10.2.2A-FdRPOC-MA-2018-25 «Educating for innovation through STEM subjects».
  - Designed the syllabus, prepared the teaching materials and taught the classes.

- **University of Bologna — Cesena Campus** *02/2019*
  Teaching Assistant — Mobile Application Development Cesena, Italy
  - Lectures and lab sessions for the bachelor's course.

Education

- **University of Bologna – Cesena Campus** *Sep 2018 – Mar 2021*
  MSc in Computer Science and Engineering Cesena, Italy
  - Final grade: 110/110 with honors

- **University of Bologna** *Jul 2020*
  24 ECTS training course in anthropology, psychology, pedagogy and teaching methodologies and technologies

- **University of Bologna – Cesena Campus** *Sep 2013 – Jul 2018*
  BSc in Computer Science and Engineering Cesena, Italy
  - Final grade: 100/110

Skills

- **BI tools:** PowerBI, Tableau, DAX Studio, Tabular Editor
- **Cloud Technologies:** Databricks, AWS (Athena, Glue, S3), GCP (BigQuery, Cloud Storage, Cloud Functions, Cloud Composer), Azure (Data Factory, Microsoft Azure Postgresql)
- **Others:** VueJS, Python, Scala, Postgres, SQL Server, dbt, Git, Github, Github Action

Certifications

- **AWS Certified - Cloud Practitioner (AWS)** *Oct 2021*
- **Microsoft Certified - Power BI Data Analyst Associate** *Dec 2022*
- **Tableau Desktop Specialist** *Dec 2023*
